

PROCEDURE

This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved. Do not install insulation within 3" of fixture sides or wiring compartment, nor above fixture in such a manner to entrap heat.

1. Connect the primary leads of the junction box with the input leads of the driver. ATTENTION! Take care of the polarity. (black/black) (white/white) (green/ground)
2. Mount the round mounting plate on the junction box at the ceiling/wall. Connect the two driver wires with the two luminaire wires with the provided clamps. Take care of polarity (+/+) (-/-). ATTENTION: Carefully, place all the wiring into the junction box.
3. Fit the RINGO lamp body on the round mounting plate. Screw the three Allen bolts tight(2 mm) on the side.

NOTE: A surface j-box is unacceptable and may allow water to enter the fixture voiding the warranty.

- Necessary installation equipment and screws:

- Damp and Wet Location Listed
- CSAus Certified

IMPORTANT SAFETY INSTRUCTIONS:

- READ all the instructions before installation. Save instructions for later use.
- MIN 60°C SUPPLY CONDUCTORS.
- Turn off power at fuse or circuit breaker box before installation or before doing any maintenance work.
- Product must be mounted in locations and at heights and in manner consistent with its intended use, and in compliance with National Electric Code and local codes. Use of accessory equipment is not recommended.
- Installing contrary to instructions may cause unsafe conditions.
- Warning: Risk of fire. Consult a qualified electrician before installation.
- To avoid hazards to children, account all parts and properly dispose of all packaging materials.
- If there are any installation questions, contact us at <http://www.dslightingus.com>

1.

Mount fixture to a recessed j-box and be certain factory gasket is tight to the ceiling to prevent water intrusion.

2.

3.
